

Toys, Books and Shoes Tagging Tips

Put any pieces of the toy that can be removed in a ziploc bag and securely tape the bag to the toy.

Write on the ziploc bag your consign # and what toy it belongs to in case it gets separated.

I like to Ziptie the bag to the toy

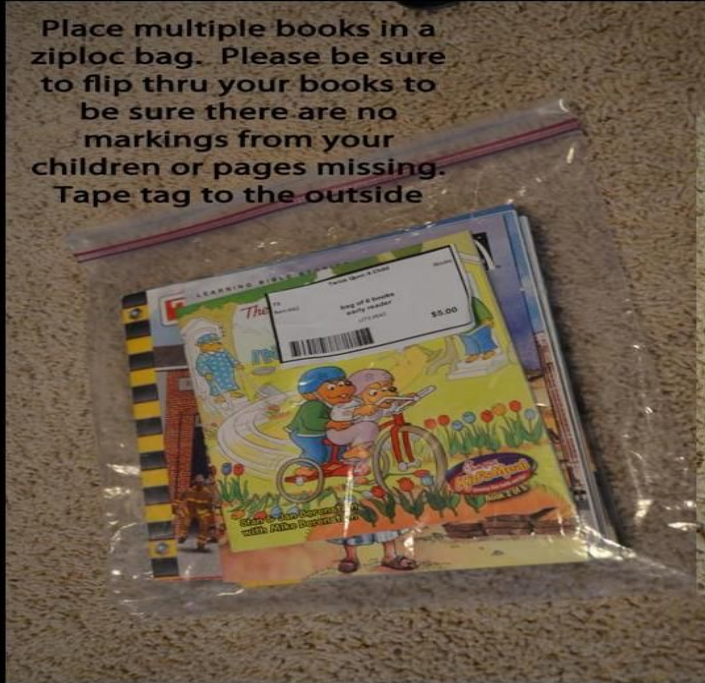

Wrap puzzles, book sets & gaming sets
without damage from tape.

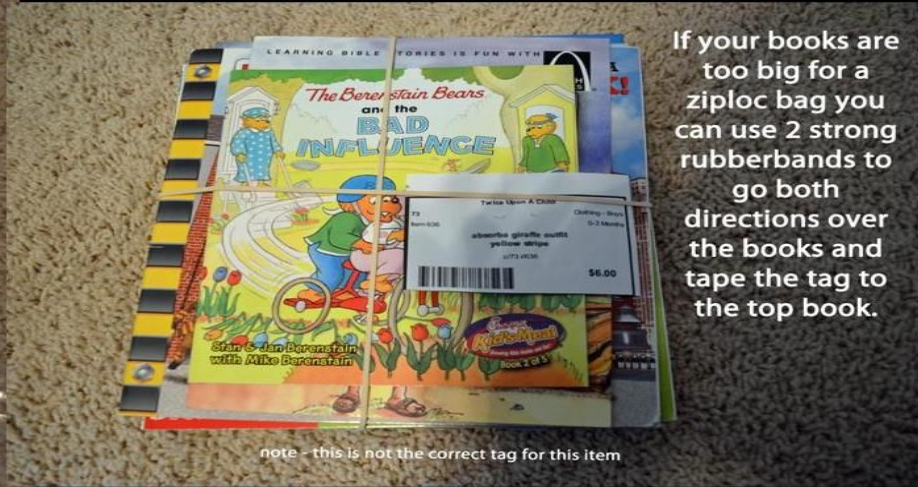

Books

Place multiple books in a ziploc bag. Please be sure to flip thru your books to be sure there are no markings from your children or pages missing. Tape tag to the outside

Packaging multiple books

If your books are too big for a ziploc bag you can use 2 strong rubberbands to go both directions over the books and tape the tag to the top book.

Books are one of the items that loses tags the most

SHOES

You can also run a zip tie thru straps on shoes to keep them together and pin the tag to the shoe or zip tie

You can use a rubberband to hold shoes together and run the safety pin thru the rubberband

Preparing shoes

If shoes will fit you can put them in an appropriate sized ziploc bag

If you wash them be sure they are completely dry before you put them in the bag
